**Would you like to discover the secrets of how to unlock them?**

### **Introduction**

(With extracts from my self-teach study course 'The **Seven** Essential Keys to Psychic Development')

There is a misconception that we are psychic or not. We are all psychic to varying degrees, as with other skills such as drawing, painting or musicality. However, without the right information, training, practice and experience, you won't be able to discover your true potential.

The same is true of psychic development. Until you have psychic training you won't be able to discover what you are capable of and where your strengths lie. Any ability of any kind is a gift of the Spirit.

Psychic development is a refinement of intuition. Intuition is a powerful ally for positive life progression. It is our natural birthright and is where we discover guidance from a 'Higher Power', 'Divine Intelligence, or whatever name we choose to call God. Your link to this source is via your 'Higher Self', often termed 'the still, small, voice within', which is only ever a calm and unhurried voice. If you hear anything else, such as a fearful or anxious voice, this is your 'Ego speaking'.

Here it is important to note that when I refer to God I am always speaking of the divine intelligence that is within every living thing and not the man made God of religion and war. I emphasise this because I have written this course for everyone's benefit, irrespective of whether they believe in God or not. My personal choice is to refer to the Divine as 'God' because it is a term that I am very comfortable with and like to use.

Communication is the key to any success and probably the most important foundation block is the development of listening skills. Listening, whether within or without, is the receiving part of communication.

We all come into this world with the potential to be someone special. It is as though our souls decide before we are born what we are meant to do - but then we are born and no one let us in on the arrangement! However, if we can learn to trust a higher power and develop psychically, then the universe can guide us along the path we are meant to tread. We can make a positive impact on our lives and the lives of those around us. We will gain many invaluable insights.

**There are at least twelve important benefits of psychic development.** Let's take a look at them:

**Psychic development** will help you to.....

- **Become** skilled at how to truly listen internally and externally
- **Enrich** your relationships
- **Increase** clarity, sense of life purpose and spiritual intelligence
- **Build** natural self-confidence, self-awareness and self-esteem
- **Learn** to trust your own judgement
- **Improve** decision making in you personal and professional life
- **Attain** a deep sense of relaxation and priceless peace of mind
- **Discover** the joy of unfolding your own natural psychic abilities
- **Realise** your ability to develop your psychic gifts in order to help others
- **Heighten** your creative ability
- **Connect** to Nature and the Universe
- **Meet** your Spirit Guides, Angels and Power Animals

Developing your psychic skills should be liberating and fun. It can also be empowering and life changing. From my own life experiences, I believe that if you are prepared to go on a journey of self-discovery and take time to learn about your true self, your psychic awareness will never let you down and your life will be truly empowered. Patience and commitment are necessary to succeed.

Here is a preview of the course contents. It has been written in an easy to follow format and includes an Audio CD on principles and practices, meditation and guided imagery. I currently offer one optional **free** thirty minute telephone mentoring session\* with me.

\*The telephone call must be made by you and booked beforehand.
